
Konen long-time Aurora insurance name

AURORA – For more than 35 years, the Konen Insurance Agency has been helping families and businesses protect and plan for their future.

The agency was founded by Vince Konen in 1963 on simple, traditional values: responsiveness, dependability and quality. Because of their dedication to these values, the agency has been a fixture in the Fox Valley area ever since.

Vince Konen started the agency selling home and auto insurance from his downtown Aurora office. The agency moved to its current location in the West Aurora Plaza in 1969. Brian Konen and Jerry Knudtson are the second generation of ownership, purchasing the agency in 1994.

Over the years, the company has grown into a full-service agency, providing all lines of insurance coverages, employee benefits, and retirement planning ser-

vices. The agency's agents and staff work closely with clients to recommend the best ways to protect and preserve their hard-earned assets.

The insurance and financial services industries continue to change at a quickening pace. With this change come opportunities. The Konen Agency is looking into new opportunities to provide additional services and products to help provide for their client's needs.

The Internet is one area the agency foresees additional benefits.

In the near future, clients will be able to log on to Konen Insurance's web site and access their account information. They will be able to confirm coverages, check deductibles or obtain Certificates of Insurance. While this technology is exciting, it will never replace the personal attention given by Konen's dedicated staff of insurance professionals.
