

Konen Insurance protects, plans futures

AURORA — For more than 38 years, the Konen Insurance Agency has been helping families and businesses protect and plan for their future.

The agency was founded by Vince Konen on simple, traditional values — responsiveness, dependability and honesty.

Because of its dedication to these values, the agency has been a fixture in the Fox Valley ever since.

Vince Konen started the agency in 1963, selling home and auto insurance from his downtown Aurora office. The agency moved to its location in the West Aurora Plaza in 1969.

Brian Konen and Jerry Knudtson are the second generation of ownership, purchasing the agency in 1994.

Over the years, the company has grown into a full-service agency pro-

viding all lines of insurance coverage. In addition, they handle employee benefits and investment and retirement planning services. The agency's account executives and staff work closely with clients to recommend the best ways to protect and preserve their hard-earned assets.

As an independent agency, Konen Insurance has the ability to provide clients with a customized plan to fit their business and personal insurance needs. They create value by listening and understanding each client's unique situation. Then the agency offers knowledgeable, innovative solutions, matching clients with the best company to fit their needs.

Konen Insurance specializes in working with small to mid-size commercial accounts. Account executives use a consultative style to find

solutions to their client's risk-management problems. Sometimes this revolves around an insurance policy; other times it may include other techniques to control costs.

The insurance and financial services industries continue to change at a quickening pace. With the passage of the Financial Services Modernization Act in 1999, an era where the financial services marketplace becomes integrated is taking shape.

The Konen Agency continues to explore these new opportunities to provide clients a broad range of other financial services offerings.

The Internet is another area the agency foresees additional benefits. Soon, clients will be able to log on to Konen Insurance's Web site and access their account information.
