

BLASTING OBSTRUCTIONS

Insurance for the Blasting Industry

Years of experience have placed Fairmont Specialty in a position to have the industry knowledge to properly protect the hazardous business of the commercial explosives and blasting industry. We are an active member of the International Society of Explosives Engineers and participate in numerous association and industry workshops and trade shows promoting safety. Through an exclusive arrangement with our partner, AGA, Inc., we offer special insurance programs for the explosives industry.

Fair and competitive pricing, knowledgeable underwriting, timely, accurate policy issuance, and expert Loss Control and Claim handling are the hallmarks of our service.

The job of a driller, blaster or other explosives professional is one of precision and experience. Explosives can be used in a wide variety of areas, but as even the most experienced professionals know accidents can happen.

At anytime unexpected incidents can cause serious damage to property and people. Whether you are doing explosives manufacturing, drilling and blasting, specialty blasting or distribution, an explosives professional needs dependable insurance protection. All coverages not available in all states.

With experienced people from both the explosives and insurance industries, Fairmont Specialty and its Program Agent, AGA, Inc., can provide explosives professionals with the insurance coverages and protection they need.

Are you prepared for the unexpected?
