vision

Executive & Professional Liability

Executives have a duty to protect the assets of the company they serve. The decisions made by a company's Executives put those assets at risk every day.

Protecting the wealth of our clients is our top priority. Today's legal environment has never been more difficult to navigate. Every decision, every failure to act, creates risk.

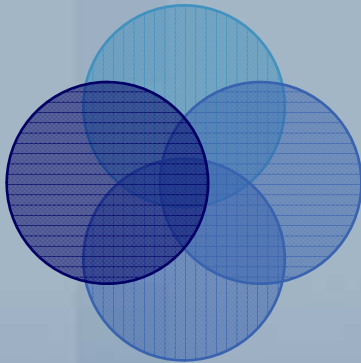

Some risks faced by individuals cannot be indemnified with corporate assets. Corporate insolvencies, certain shareholder derivative suits, and restrictive corporate bylaws are just some of the issues impacting personal assets. We help our clients assess their level of protection.

We offer the following Executive & Professional products:

Directors' & Officers' Liability Insurance
Employment Practices Liability Insurance
Fiduciary Liability Insurance

Errors & Omissions Liability Insurance
Crime Insurance
Kidnap/Ransom & Extortion Insurance

Personal Insurance

Personal insurance is just that, personal. No two situations are exactly alike, so policies vary, case by case.

At York International, we place special emphasis on helping clients make informed decisions regarding catastrophic risk. Our Personal Lines specialists work with you to tailor an insurance program to protect your family, home, auto, and other valuable possessions at the most reasonable costs our carriers can provide.

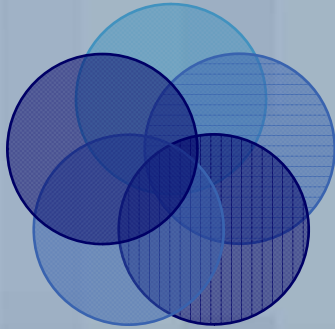

We offer the following personal insurance products:

Homeowners
Automobile
Watercraft
Motorcycle
Rental Property
Valuable Items

Antiques
Jewelry
Collectors Items
Recreational Vehicles
Umbrella Liability
Flood

Life
Disability
Long Term Care
Annuities

Employee Benefits

Employee benefits have become a key component in an employee's total compensation. Along with salary, social security, unemployment insurance, workers compensation and other state mandated programs, the cost of employees has become a significant component of doing business. At York we take pride in our innovative ways we assist employers in creating customized employee benefit programs with the following goals in mind:

- Cost containment
- Coverage that is valued by each participant
- Flexibility and accessibility for each employee

We offer the following Employee Benefits and Services:

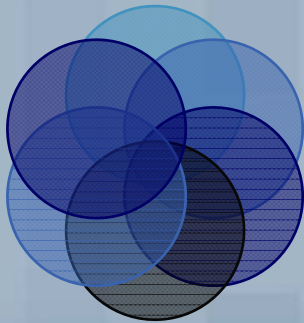

Health
Life
Long Term Disability
Short Term Disability
Dental
Long Term Care

401k
Profit Sharing
Defined Benefit
Vision
Accident
Cancer

Critical Illness
On-line enrollments
Cafeteria Plans
Health Savings Accounts
Health Reimb. Accounts
Self Insured Arrangements

Many coverages are available on a voluntary basis.

Compliance Check

Compliance Check is a pro-active risk management system designed to assist employers with Federal employment laws and other employment practices.

In working one-on-one with employers, we assist in the creation of employee manuals, job descriptions, interview questions, performance appraisals and the proper maintenance and completion of I-9 forms.

Through hands-on workshops, seminars and e-mail newsletters we walk employers through the maze of federal regulations and assist them in creating policies, procedures and practices that are compliant with the law.

Our consultants conduct anti-harassment and sexual harassment training for employees. We also conduct supervisor training in the aforementioned disciplines as well as on issues of FMLA and ADA.

Some of the Acts we address include EEOC (including Title VII, ADEA and PDA), ADA, FMLA, FLSA, COBRA, HIPAA, OSHA, Section 125, I-9 and USERRA.

These services are available to all of our clients and prospective clients as part of our overall scope of services. We do not charge an additional fee.
